Independent Auditor's Report

Board of Trustees
The Homer Foundation
Homer, Alaska

We have audited the accompanying financial statements of The Homer Foundation (a nonprofit organization), which comprise the statement of financial position as of June 30, 2014 and 2013, and the related statements of activities, statements of functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements - Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility - Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion - In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Homer Foundation as of June 30, 2014 and 2013, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

1. Summary of Significant Accounting Policies

Nature of Activities

The Homer Foundation (the "Foundation") is a community foundation established in 1991 to increase charitable resources in the southern Kenai Peninsula of Alaska. The Foundation receives contributions from individuals, businesses and other non-profit organizations most of whom live or work in the area benefitted by the Foundation's activities. These funds are held in trust and pooled together for investment purposes. The income earned on these funds is distributed annually in the form of grants to nonprofit agencies enhancing the quality of life for area citizens.

Tax Status

The Foundation is recognized as exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code (the Code) and has been determined not to be a private foundation as defined under Section 509(a)(1). The Foundation is exempt from State income taxes under the Alaska Nonprofit Corporation Act. Therefore, the accompanying statements do not reflect a provision for income taxes. Although The Foundation is exempt from federal income taxes, any income derived from unrelated business activities is subject to the requirement of filing Federal Income Tax Form 990-T and a tax liability may be determined on these activities. The Organization believes that it has appropriate support for any tax positions taken, and as such does not have any uncertain tax positions that are material to the financial statements.

Financial Statement Presentation

The financial statements of the Foundation have been prepared on the accrual basis in conformity with generally accepted accounting principles. The Organization has adopted FASB ASC 958-205 *Not-for-Profit Entities: Presentation of Financial Statements.* Under FASB ASC 958-205, the Foundation is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Classification of Revenue, Support and Net Assets

Contributions received are recorded as unrestricted, temporarily restricted or permanently restricted support, depending on the existence and nature of donor restrictions. All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Contributions that are restricted by the donor for specific purposes or for future periods are reported as an increase in temporarily restricted or permanently restricted support. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

1. Summary of Significant Accounting Policies, *continued*

Classification of Revenue, Support and Net Assets, *continued*
FASB ASC Topic 958-605, *Not-for-Profit Entities: Revenue Recognition*, and its subsequent interpretations, provides that if the governing body of an organization has the ability to remove a donor restriction (i.e., variance power), the contribution should be classified as an unrestricted net asset. Accordingly, such assets are classified in the accompanying financial statements as unrestricted net assets absent donor-imposed restrictions to maintain the assets permanently. This classification does not alter the longstanding policy of the foundation to distribute assets entrusted to the Foundation in accordance with the original fund agreements and to manage the assets of the component funds in a manner similar to an endowment with only a portion of each component fund distributed annually, unless directed otherwise by the fund advisor.

Fund Groups
The Foundation maintains donated assets in individual component funds established primarily by donors. This framework classifies the Foundation's resources into funds established in accordance with the Foundation's objectives and ensures the observance of donor intentions. Grants charged to the individual funds are directed to purposes identified by the donors and by the Foundation's Distributions Committee.

Component Fund Investments and Spending Policy
Investments in equity securities with readily determinable fair values and all debt securities are measured at fair value in the statement of financial position. The Foundation allocates realized and unrealized gains and losses on investments to the individual component funds based on the average balance for each fund measured on a monthly basis.

The Foundation's component funds are managed in such a way as to balance the generation of income for the distribution process with the preservation and growth of principal to equal or exceed inflation. The Foundation uses an income approach to determine how much will be available for annual distributions. Under this income approach interest and dividends realized from the investment portfolio, pass-through grants, matching grants and appropriations from unrestricted net assets may be awarded by the Board of Trustees. Growth from realized and unrealized gains and losses is thus available to maintain or increase the real value of the component funds.

Cash and Cash Equivalents
The Foundation considers all highly liquid investments purchased with initial maturities of three months or less to be cash equivalents. Cash and cash equivalents for purposes of the statement of cash flows excludes cash and cash equivalents of the Foundation that are held for investment. Cash and cash equivalents that are held for investment are in accounts that are not insured by the FDIC.

Conditional Promises and Indications of Intentions to Give
Pursuant with the Foundation's policy and in conformity with FASB ASC Topic 958-605, the Foundation does not recognize conditional promises as revenue until the condition is met. A donor's indication of an intention to give at a future date is not recognized as revenue until the intention is communicated as an unconditional promise to give.

1. Summary of Significant Accounting Policies, *continued*

Inventory
Inventory consists of books for resale and is stated at cost using the first in, first out method.

Furniture and Equipment
Purchases of furniture and equipment are made from operating funds and recorded at cost. Donated furniture is reported at fair value at the date of gift. It is the Foundation's policy to capitalize property and equipment purchases over $1,000. Depreciation is computed by the straight-line method over the estimated useful lives of the assets, which is generally five years.

Contributed Services and Facilities
Contributions in-kind are recognized in accordance with the provisions of FASB ASC Topic 958-605. Donated facilities are recorded at estimated fair value. Contributed services that require a specialized skill and that the Foundation would have paid for if not donated are recorded at the estimated fair value at the time the services are rendered. The Foundation also receives donated services that do not require specialized skills but which are nonetheless central to the Foundation's operations. These contributed services are not reflected in the financial statements.

Credit Risk
Financial instruments which potentially subject the Foundation to a concentration of credit risk consist principally of cash and investments. The Foundation has significant amounts of cash equivalents that are not federally insured, however, the Foundation places cash and temporary investments with high credit quality financial institutions.

The Foundation's investments are managed by an Investment Manager in accordance with asset allocation guidelines adopted by the Board of Trustees. An Investment Committee, consisting of members of the Board of Trustees and outside members, provides oversight of the Investment Manager and reports at least quarterly to the Board of Trustees. The Investment Manager is also a member of the Board of Trustees and does not receive compensation for his services.

Estimates
The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and disclosure of contingent assets and liabilities for the reported periods. Actual results could differ from those estimates and assumptions.

2. Investments and Fair Value Measurements

The fair value of an asset is the amount at which the asset could be bought or sold in a current transaction between willing parties, that is, other than in a forced or liquidation sale. The Foundation's financial assets carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by generally accepted accounting principles. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's classification is based on the lowest level input that is significant to its measurement. For example, a level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

Level 1 – Values are unadjusted quoted prices for identical assets in active markets accessible at the measurement date.

Level 2 – Inputs include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spread and yield curves.

Level 3 – Certain inputs are unobservable (supported by little of no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Foundation's estimate of what hypothetical market participants would use to determine a transaction price for the asset at the reporting date.

Managed Investments – Level 1

Publicly traded managed investments are stated on the basis of quoted market prices. Funds managed by the Foundation are subject to its investment policy, which is to maintain a well-diversified portfolio comprised of common stocks, and fixed income securities. Policy goals are prioritized to maintain safety of principal, provide sufficient liquidity to meet cash flow requirements, and diversify risk.

Other Investments – Level 3

Mortgage notes receivable consist of first mortgage deeds of trust, secured by real estate and are carried at the amounts contractually due net of allowances for uncollectible amounts and discounts, if any. The Foundation typically purchases the notes at a discount to the face value of the note and the discount is amortized to interest income over the life of the note. The Foundation periodically reviews the balances of mortgage notes receivable and provides an allowance for uncollectible amounts when it believes collection of all or some portion of the balance is doubtful. No allowance for uncollectible notes was considered necessary at June 30, 2014 and 2013.

2. Investments and Fair Value Measurements, *continued*

Fair values of assets measured on a recurring basis at June 30, 2014 are as follows:

	Fair Value	Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Marketable Equity Securities	$ 1,999,864	$ 1,999,864	$ -	$ -
Investment in Kachemak Capitalization Partnership	50,000	-	-	$ 50,000
Mortgage Notes Receivable	108,277	-	-	108,277
	$ 2,158,141	$ 1,999,864	$ -	$ 158,277

Fair values of assets measured on a recurring basis at June 30, 2013 are as follows:

	Fair Value	Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Marketable Equity Securities	$ 1,742,203	$ 1,742,203	$ -	$ -
Investment in Kachemak Capitalization Partnership	$ 100,000	-	-	100,000
Mortgage Notes Receivable	138,371	-	-	138,371
	$ 1,980,574	$ 1,742,203	$ -	$ 238,371

2. Investments and Fair Value Measurements, *continued*

Cost, market value and unrealized appreciation for marketable equity securities and contractual amount due, carrying amount and unamortized discount for mortgage notes receivable at June 30, 2014 and 2013 are summarized as follows:

2014	Cost and Contractual Amount Due	Carrying Amount	Unrealized Appreciation & (Unamortized Discount)
Cash and Cash Equivalents	$ 285,865	$ 285,865	$ -
Marketable Equity Securities	2,412,517	1,999,864	(412,653)
Mortgage Notes Receivables	124,158	108,267	(15,891)
Investment in Kachemak Capitalization Partnership	50,000	50,000	-
	$ 2,872,540	$ 2,443,996	$ (428,544)

2013	Cost and Contractual Amount Due	Carrying Amount	Unrealized Appreciation & (Unamortized Discount)
Cash and Cash Equivalents	$ 33,781	$ 33,781	$ -
Marketable Equity Securities	2,412,517	1,742,203	(670,314)
Mortgage Notes Receivables	157,046	138,371	(18,675)
Investment in Kachemak Capitalization Partnership	100,000	100,000	-
	$ 2,703,344	$ 2,014,355	$ (688,989)

Earnings from investments for the years ended June 30, 2014 and 2013 is summarized as follows:

	2014	2013
Interest and Dividends	$ 45,761	$ 39,894
Net Realized Gains (Losses)	(110,725)	27,779
Change in Unrealized Gains (Losses)	511,692	(371,259)
	$ 446,728	$ (303,586)

3. Office Furniture & Equipment

Office furniture and equipment at June 30, 2014 and 2013 consisted of the following:

		2014		2013
Office Furniture and Equipment	$	14,815	$	14,815
Less: Accumulated Depreciation		(14,815)		(14,283)
	$	-	$	532

4. Grants Payable

At June 30, 2014 and 2013, respectively, the Foundation has committed to award grants totaling $17,154 and $14,900.

5. Funds Managed for Others

FASB ASC Topic 958-605 identifies certain situations when an organization does not record contribution revenue when it receives funds. Instead, the recipient organization records an asset and a liability. These situations include transactions where the organization receives funds as an agent, trustee or intermediary.

The Foundation has agreements in which it invests resources for the sole benefit of donor organizations. These situations are created when the donor organization creates a component fund and specifies itself or an affiliate as the beneficiary. At June 30, 2014 and 2013, the amount invested by the Foundation for others was $347,673 and $287,356, respectively. The investment return earned on behalf of these organizations is not included in the Foundation's statement of activities.

6. Unrestricted Net Assets

Unrestricted net assets at June 30, 2014 and 2013 consisted of the following:

		2014		2013
Administrative Funds	$	244,386	$	59,903
Board Designated Funds		52,721		59,193
Repair and Replacement Funds		106,666		89,447
Other Designated Funds		57,118		135,222
Field of Interest Funds		623,683		443,211
Donor Advised Funds		909,786		775,674
	$	1,994,360	$	1,562,650

7. Temporarily Restricted & Permanently Restricted Net Assets

Temporarily restricted net assets consisted entirely of funds whose use by the Foundation has been restricted by specified time or purpose limitations by the donor.

Permanently restricted net assets consisted of an endowment that must be maintained in perpetuity by the Foundation. In accordance with donor instructions the Foundation may use the investment income from this endowment to support operations.

	Temporarily Restricted Grants & Support				Unrestricted Grants & Support		
Type of Donor	Balance at 06/30/13	Grants Received in FY14	Grants Released to Unrestricted in FY14	Balance at 06/30/14	Temporarily Restricted Grants Released in FY14	Unrestricted Grants & Support Received in FY14	Total Unrestricted Grants & Support for FY14

Government	11,000	61,434	62,434	10,000	62,434	109,000	171,434
Total	$130,116	100,763	132,637	98,242	132,637	298,535	$ 431,172

8. Subsequent Events

Management has evaluated subsequent events through November 11, 2014, that date which the financial statements were available for issue. On July 3, 2014, $50,000 was paid on a receivable from the Kachemak Capitalization Partnership. Except for as noted above, no events were identified that would require disclosure according to generally acceptable accounting principles.

9. Related Party Transactions

During 2013, the Foundation invested $100,000 in the Kachemak Capitalization Partnership (the Partnership), of which the Foundation's Board of Director's chair is the general partner. The function of the Partnership is to provide funds for the City of Kachemak (the City), of which another Board member was the Mayor, to install and supply natural gas to the residents of the City. The Partnership is loaning funds to the City at market interest rates. Subsequent to June 30, 2014, the financial statement date, on July 3, 2014, $50,000 of this investment was cashed out by the partnership.
